Hands-Free Patient Reported Outcomes Collection

SurgiSurvey, LLC  
Danville, CA  
hello@surgisurvey.com

SurgiSurvey is cloud-based, automated software that collects 5-star reviews and patient reported outcomes (PROs). The system requires ZERO human intervention and will grow your practice and increase revenue. Guaranteed.

- Only collects 5-star reviews
- No surgeon or staff involvement in data collection
- No software or hardware installation required
- Works with *any* medical record system (including paper records)
- 1-minute patient enrollment
- Real-time access to all data (raw and analyzed)
- Live published outcomes and charts to your practice website
- Costs 90% less than competitors
- Facilitates case collection for board certification
- Improves online physician ratings (Yelp, Google, Healthgrades, etc.)
- Participate in a national prospective registry
- Compares personal outcomes within and outside your practice
- HIPAA compliant
- MIPS compliant for Medicare reporting

Basic features start at \$100/month per surgeon.

SurgiSurvey began as my fellowship research project to validate the value and simplicity of automated data collection. The success of a pilot study attracted interest from three regional orthopedic practices. In the following two years the product was enhanced and modified to meet the needs of most orthopedic practices. Since 2015, SurgiSurvey has been offered to a select group of surgeons as a patient data collection and practice marketing tool. As of January 2020, there are over 6,000 patients enrolled and 40 surgeons participating.

I look forward to bringing your practice on board.
